

Teaching notes

This activity is linked to Letters and Sounds: Phase 4.

On the following pages are eight bingo cards and 11 letter cards. These need to be photocopied onto coloured card, cut out and laminated.

You will also need six coloured counters per child and a bag to keep the bingo letters in.

- Give each child a bingo card. Explain to the children that they are going to play bingo using words from the book.
- Take one adjacent consonant card at a time out of the bag and sound it out to the children. If the children can match the sound to a word on their bingo card, they cover that letter with a counter.
- The winner is the first child to cover all their words *and* be able to read the words back to you.
